Requirement Statement

Name of the Project:

Student Dropout System

Brief description about the Solution:

When a student stops a course, that student is withdrawn from the course. There will be a lot of time and problems for the employee doing it.Through this system the problems will be minimized and the student will be removed and managed.

User Requirements:

User Name	List of Requirements
Registration manager	1. Must have full permission to dropout and maintain the system.
	2. Allow to generate and access monthly reports.
	3. Dropout students if their attendance is very weak.
